

**Western Contra Costa Transit Authority  
Anticipated Disadvantaged Business Enterprise (DBE) Goal  
Federal Fiscal Years 2019-20 thru 2021-22**

**SUMMARY**

In accordance with Title 49 of the Code of Federal Regulations, Part 26 (49 CFR Part 26), Western Contra Costa Transit Authority (WCCTA) implements a Disadvantaged Business Enterprise (DBE) Program to ensure nondiscrimination in the award of federally funded contracts. As part of this program, WCCTA must establish a triennial goal for DBE participation in all contracts that are to be funded with Federal Transit Administration (FTA) funds. A DBE firm is defined as a for-profit "small business concern" that is at least 51 percent owned and controlled by one or more socially and economically disadvantaged individuals. DBE firms are certified as such through Unified Certification Programs established in each state.

For federal fiscal years (FFY) 2019-20 through 2021-22, WCCTA anticipates using the majority of federal funds for the purpose of vehicle replacements (which are not subject to the goal setting process) and related equipment. With no additional contracting opportunities available/anticipated for Federal Fiscal Years 2019-20 through 2021-22, the Anticipated Disadvantaged Business Enterprise (DBE) Goal for this triennial period is zero (0) percent. WCCTA will continue to participate in program outreach to DBEs and Small Business Enterprises (SBEs) using funds received from sources other than the FTA. However, this goal only details new contracting opportunities planned with FTA funds

**DEVELOPMENT OF ANTICIPATED DBE GOAL**

As an eligible recipient of federal funding, WCCTA is required to comply with 49 CFR Part 26, which states that grantees must establish and implement a DBE program and set triennial DBE participation goals.

While anticipated disadvantaged business opportunities for federally funded projects during the triennial period 2019-2022 are limited, WCCTA will continue to seek small and disadvantaged business participation on contracts, regardless of funding source. However, only those contracts planned to fund all or in part with FTA funds, are included in out triennial goal development.

The methodology to calculate the DBE participation goal is a two-step process described in 49 CFR Part 26. Step-One of the methodology establishes a base figure for the anticipated contracts to be awarded in the period. The base figure is derived from the relative availability of DBEs that are ready, willing and able to participate on these anticipated contracts. Step-Two relies on WCCTA's knowledge of its contracting markets and previous history of DBE participation to determine if an adjustment to the base figure

is needed. The calculation using the two-step methodology results in a DBE Goal of zero (0) percent for FFY 2019-20 FFY 2021-22. This methodology is outlined in Attachment 1.

The Overall DBE goal is typically split into race-neutral and race-conscious components. Race-neutral participation occurs when a DBE obtains a contract or subcontract through customary procurement procedures where there was no contract goal or its DBE status was not considered in making the award. Race-conscious DBE participation is the portion of the overall goal that focuses on assisting only DBEs, where a contract's DBE goal is explicitly stated to encourage DBE participation. WCCTA will continue to operate a Race-neutral DBE Program. WCCTA will also continue to supplement its DBE Program with a Small Business Enterprise (SBE) Program.

### **OUTREACH/PUBLIC COMMENT PERIOD**

In accordance with the public participation requirements of 49 CFR Part 26.45, and having received Board approval, WCCTA has posted its DBE Goal on its official website. The proposed triennial goal was posted/published on WCCTA's official website during the goal-setting process in anticipation for comments and prior to submission to FTA for review. Additionally, WCCTA has published it for general circulation in the Contra Costa Times inviting a 30-day review/45-day public comment period. Copies will be mailed to Pinole, Rodeo, and Hercules Chambers of Commerce for dissemination.

WCCTA has sought and encouraged public participation input from minority, women's and general contractor groups, through its participation as a member of the BOC (Business Outreach Committee). This consortium of 26 Bay Area Transit and Transportation Agencies assists Disadvantaged Business Enterprises (DBEs) and other small companies with expansion of their businesses through training, technical assistance, and relationship-building with agency staff and the contracting community of the San Francisco Bay Area. WCCTA attends monthly BOC meetings and contributes to the achievement of BOC projects.

On April 2, 2019, WCCTA participated in the BOC's Public Participation Meeting that provided members of the public with the opportunity to learn about upcoming transportation projects and provide input on the goal-setting process for federally assisted contracts for Federal Fiscal Years (FFY) 2019-20 through 2021-22. This meeting was attended by regional transit agencies where vendors and government contracting personnel from these transit agencies met to discuss upcoming projects and exchange information on how to connect with these agencies for contracting opportunities. WCCTA continues to seek on-going public participation from community organizations through public meetings and public planning documents comment periods on up-coming projects. Publication of outreach events is presented in Attachment 2.

WCCTA's public participation and outreach activities are designed to broaden awareness of WCCTA's Disadvantaged Business Enterprise Program beyond federal dollars. Furthermore, the measures described in 49 C.F.R. Part 26.51, focusing on race-neutral

means will be actively pursued, and WCCTA will encourage its contractors to also make similar outreach efforts to include DBE participation in subcontracting opportunities. In addition to consultation with the BOC and CUCP, WCCTA will continue to organize and offer informational programs for establishing DBE goals, meeting DBE eligibility requirements, familiarizing potential contractors with WCCTA procurement procedures and requirements, and to otherwise develop, effective programs to further the inclusion of DBEs in all WCCTA contracting activities. These efforts include but are not limited to face-to-face, interactive meetings with local minority/small business organizations

### **Summary of public outreach comments**

WCCTA did not receive any comments during or after the public participation process therefore no changes to the goal were made.

### **ANTICIPATED DISADVANTAGED BUSINESS ENTERPRISE (DBE) GOAL METHODOLOGY: FFY 2019-20 THRU 2021-22**

The methodology to calculate an agency's DBE goal is a two-step process described in 49 CFR Part 26. Step-One of the methodology establishes a base figure for new federally funded contracts anticipated to be awarded in the upcoming three Federal Fiscal Years (October 1 – September 30). This calculation has been done for contracts anticipated to be awarded between October 1, 2019 and September 30, 2022.

The base figure is derived from the relative availability of DBEs that are ready, willing, and able to participate on these anticipated contracts. Step-Two relies on the agency's knowledge of its contracting markets and previous history of DBE participation to determine if an adjustment to the base figure is needed. The calculation using the two-step methodology results in an Anticipated DBE Goal of 0% for FY 2019-22 for the WCCTA. This methodology is outlined below.

### **Step-One Process: Development of Base Figure**

The initial step in developing an Anticipated DBE Goal of 0% is to determine the market area for consultants who have demonstrated an interest, or are anticipated to participate in WCCTA contracts. WCCTA's market area consists of the nine Bay Area counties: Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma.

WCCTA's service area comprises just over 20 square miles of West Contra Costa County, including the cities of Pinole and Hercules and the unincorporated areas of Montalvin Manor, Bayview, Tara Hills, Rodeo, Crockett, and Port Costa. The area is bounded to the north by the Carquinez Strait, the city limits of Pinole and Hercules to the east, the Richmond city border to the south, and by San Pablo Bay to the west. In addition, WCCTA operates regional service between Martinez and the Hercules Transit Center, Transbay

service between the Hercules Transit Center and the San Francisco Transbay Terminal, and regional service between the Hercules Transit Center and Contra Costa College. Currently, population in the WCCTA service area is approximately 67,000 inhabitants. The nine-county Bay Area is the most appropriate market area for WCCTA to use in its goal-setting methodology. Seventy percent of past and current WCCTA vendors are from the Bay Area.

WCCTA anticipates using the majority of its federal funding to go toward the purchase of rolling stock and related equipment (fare boxes, radios, etc.). Other uses will include supplementing the cost of providing ADA service. These activities were matched with their respective North American Industry Classification System (NAICS) codes, which are used to identify firms in the California Unified Certification Program (CUCP) DBE and U.S. Census Bureau's County Business Patterns databases.

Both databases are searched for the number of firms in the relevant NAICS code in the WCCTA market area. The ratio of DBE firms to non-DBE firms is then calculated, by dividing the number of certified DBE firms ready, willing and able to work in the WCCTA's market area, according to the CUCP database, by the total number of firms found in the same market area according to the U.S. Census database. This is performed for each county and each type of activity.

Finally, the Step-One Base Figure results from multiplying the DBE ratios for each work group by the corresponding weights for each work group, and summing the results for each activity. The calculation of the Step-One Base Figure is shown in Attachment 1.

The Step-One Base Figure, weighted by type of work to be performed, is .0015%.

### **Step-Two Process: Adjustment to the Base Figure**

The purpose of the analysis in Step-Two is to make a determination based on relevant evidence available to WCCTA if any adjustments to the Step-One Base Figure are justified. WCCTA's DBE participation history can assist in determining whether an adjustment to the Step-One Base Figure is warranted.

With limited contracting opportunities anticipated in the triennial period 2019-20 through 2021-22, and a limited number of DBEs available, adjustments were not necessary. In addition, during the previous three years this agency did not increase DBE participation with FTA assisted contracts through outreach and business development efforts; only with State and local assisted contracts. Therefore, WCCTA determined based on relevant evidence available that an adjustment was unnecessary. The overall Anticipated DBE Goal or the Step-Two Adjusted Figure, is 0%

**Conclusion: The Anticipated Disadvantaged Business Enterprise (DBE) Goal for FFY 2019-2022 is 0%.**

### FFY 2019-20 through 2021-22 DBE Goal Methodology

**Step 1 – Determine the weight of each type of work by NAICS Code:**

**FTA Assisted Contracts**

	NAICS Code	Project	Amount of DOT funds on project:	% of total DOT funds (weight)
1	485113	ADA operations set aside	\$807,383.00	0.0985
2	334514	Fare Boxes/Collection Systems	\$213,735.00	0.0261
3	423690	Radio Systems for Paratransit Vehicle Replacement	\$1,600.00	0.0002
4	336112/336211	Paratransit Vehicle Replacement	\$255,840.00	0.0312

### Business Outreach Committee Public Participation Notices

THE BUSINESS OUTREACH COMMITTEE (BOC) A CONSORTIUM OF BAY AREA TRANSPORTATION AGENCIES

## PUBLIC PARTICIPATION MEETING

**TUESDAY, APRIL 2, 2019**

**2:00 PM - 3:00 PM**

**AC Transit 1600 Franklin Street (Board Room), Oakland, CA 94612**

The BOC hereby notifies all interested parties that member agencies are beginning the process of establishing triennial overall DBE goals for contracts and procurements that may be financed in whole or in part by the Department of Transportation for Federal Fiscal Year 2020/2022.

**Get advance notice on upcoming contracting opportunities  
Review goal setting process | Provide input on proposed goals**

Please RSVP for this free event [HERE](#)

### PARTICIPATING BOC MEMBER AGENCIES:

*It is the policy of the BOC members that small businesses owned and controlled by socially and economically disadvantaged individuals are provided equal opportunity to participate in the construction, professional service, and procurement activities of their agencies.*

Please contact meeting coordinator Artemise Davenport at (415) 257-4581 if you have questions or want additional information about the meeting. If you cannot attend, but wish to submit your comments and/or suggestions, please complete the comment card and send to Artemise Davenport, DBE Program Administrator, Golden Gate Bridge, Highway and Transportation District, 1011 Andersen Drive, San Rafael, CA 94901, or via facsimile to (415) 257-4555, or via electronic mail to [adavenport@goldengate.org](mailto:adavenport@goldengate.org).

March 11, 2019

Dear Business Partner:

On behalf of the Business Outreach Committee (BOC), you are invited to participate in a roundtable discussion with Bay Area transit and transportation agencies to share information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, agencies efforts to establish a level playing field, and the goal methodology used for federally-assisted contracts for Federal Fiscal Year (FFY) 2020 - 2022.

Members of trade associations, chambers of commerce, builders exchanges, and technical resource groups have all been invited to join in this discussion. A list of proposed discussion topics are attached as well as contact information for the BOC agency representatives that will be participating in this meeting.

The BOC works hard to promote small business inclusion in agency contracting and procurement activities. Therefore, immediately following the consultation session, BOC member agencies will hold a meeting to inform the public of their contracting opportunities, hear comments and/or suggestions on proposed DBE goals for the upcoming FFY and on how agencies can improve their DBE programs.

Here are the details of the meeting:

The goal of the BOC is to assist small disadvantaged and local firms in doing business with Bay Area transportation agencies. The BOC seeks to provide meaningful opportunities for small, disadvantaged, and/or local companies to expand their capacity by developing relationships with transit agency staff and the contracting community of the San Francisco Bay Area.

Please join us and provide your input on our efforts.

Respectfully,
